

HARSH SHRIVAS

Full Stack MERN Developer

+91-8866014843 | <mailto:harshkumarshrivas128@gmail.com> | <https://www.linkedin.com/in/harsh-shrivass-b0668b214/> | <https://github.com/harshshrivas8055> | <https://portfolio-eight-rho-zqioxddyc5.vercel.app/>

Professional Summary

Full Stack MERN Developer with hands-on experience building and deploying production-grade web applications. Skilled in React.js, Node.js, Express.js, MongoDB, and REST API integration. Delivered real client projects with live Vercel deployments. Strong grasp of role-based authentication, Redux Toolkit state management, and clean, maintainable code practices.

Technical Skills

Languages: JavaScript (ES6+)

Frontend: React.js, Redux Toolkit, Next.js, Tailwind CSS, Material UI, Bootstrap

Backend: Node.js, Express.js

Database: MongoDB

Tools & Platforms: Git, GitHub, Postman, Vercel

Core Competencies: REST API Development, JWT Authentication, Role-Based Access Control (RBAC)

Work Experience

Full Stack Developer Intern

Aug 2025 – Dec 2025

AliveCreate Web Solution

- Developed full-stack features applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) and Next.js.
- Built and integrated RESTful APIs, handled server-side rendering with Next.js, and contributed to both frontend and backend modules.
- Collaborated on authentication flows and data management features across the projects.

Frontend Developer Intern

Dec 2024 – Apr 2025

Mamo Technolabs LLP

- Built responsive, component-based UI for a School Management System using React.js, Material UI, and Redux Toolkit.
- Collaborated with backend developers to define API contracts and ensure seamless frontend-backend integration.

Freelance & Client Work

ByteBly | *React.js, Tailwind CSS, Vercel*

bytebly.in

- Developed a full digital agency website with modern 3D-inspired UI and smooth animations.
- Deployed and maintained on Vercel with custom domain configuration.

Sanderi Exporters | *React.js, Vercel*

sanderiexporters.com

- Modified, optimized, and deployed a business website for a client in the export industry.
- Ensured mobile responsiveness, performance optimization, and live deployment via Vercel.

Projects

QRBite | *React.js, Next.js, Node.js, Express.js, MongoDB, Railway*

[Live](#) | [GitHub](#)

- Built a QR-powered restaurant platform replacing physical menus with digital ordering workflows.
- Implemented QR code generation, digital menu management, and mobile-first responsive UI for seamless customer experience.
- Designed full-stack architecture using Next.js with secure API handling and managed full end-to-end deployment on Railway.
- Enabled live deployment and scalable restaurant onboarding workflows for real-world SaaS use cases.

Inventory Management System | *React.js, Redux Toolkit, Django, MySQL*

- Built a role-based system with separate Admin and Salesman dashboards and authorization flows.
- Admin can create and manage salesman accounts; salesman access is restricted to sales-related operations only.
- Collaborated with backend developers to define API contracts and ensure seamless frontend-backend integration.

Image Optimizer Web App | *React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Tailwind CSS*

- Full-stack MERN app for server-side image compression via Sharp library.
- Implemented JWT authentication, Multer for file uploads, and secure file handling on the backend.

Education

Parul University

B.Tech. in Computer Science & Engineering (CGPA: 7.16 / 10)

Vadodara, Gujarat

2021 – 2025

Certifications

Data Analytics with Python — NPTEL (IIT), 2024
